Create Your Service

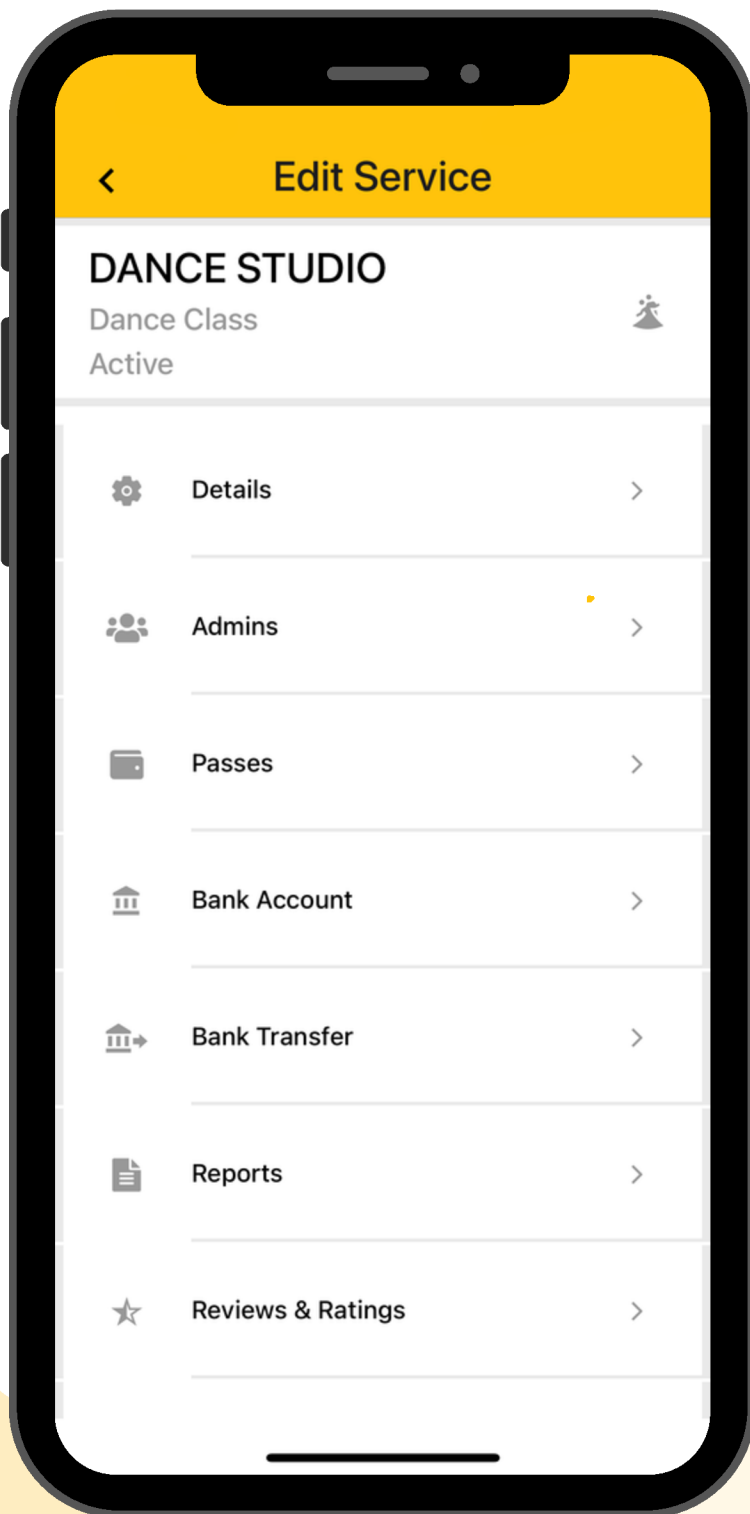

keeps things handy to create your service with PayPass app

The image shows a smartphone screen with a yellow header bar containing a back arrow and the text "Service Details". Below the header are several input fields: "GSTIN" with "Optional" text to its right, "PAN", "Service Name", and "Type" with a dropdown arrow. There is a "Location" field with a location pin icon to its right. Below these are two text areas: "Notes" with the placeholder "Add your notes here..." and "Links" with the placeholder "Add your notes here...". At the bottom of the screen is a yellow button labeled "Create".

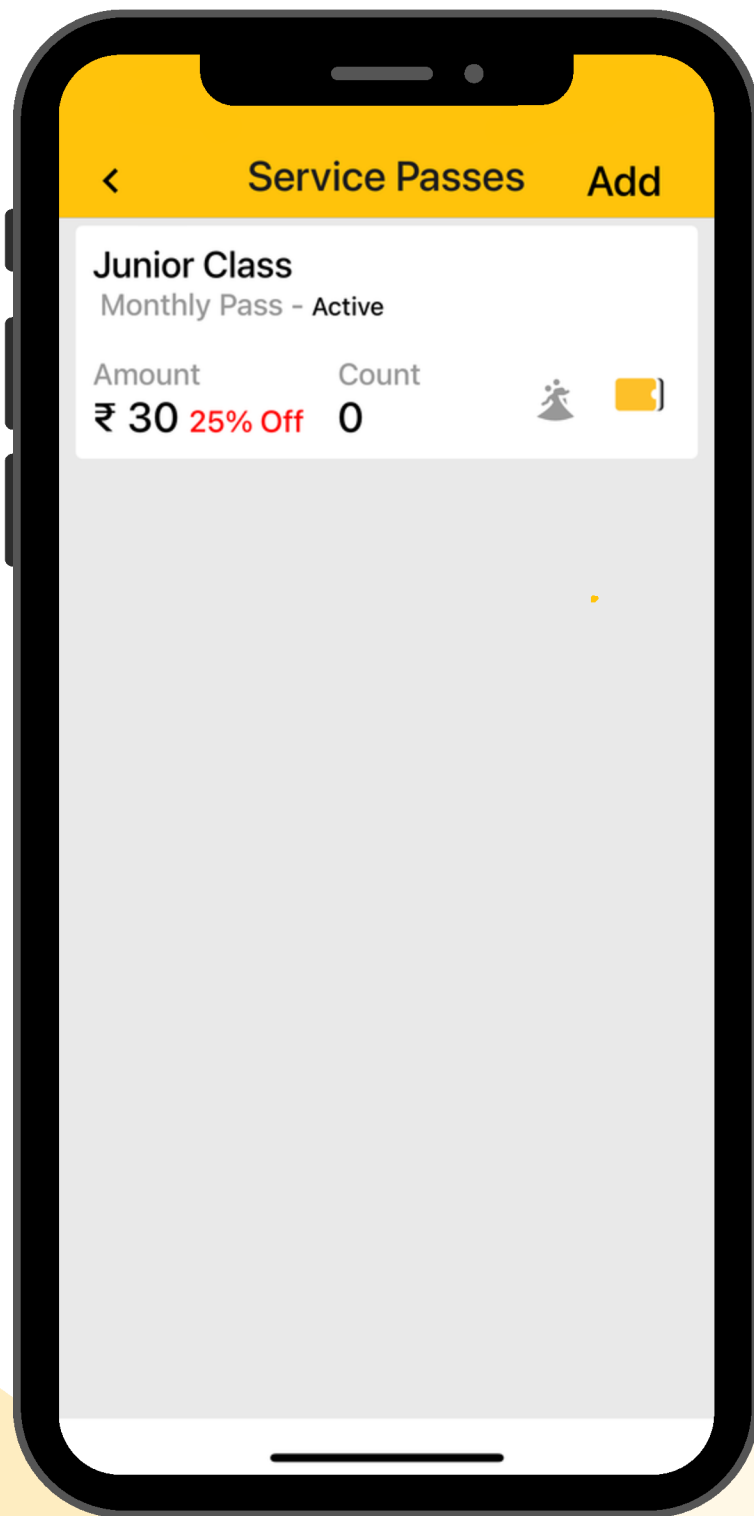

Configure Service

Add all the details for your service, include location, notes and links.

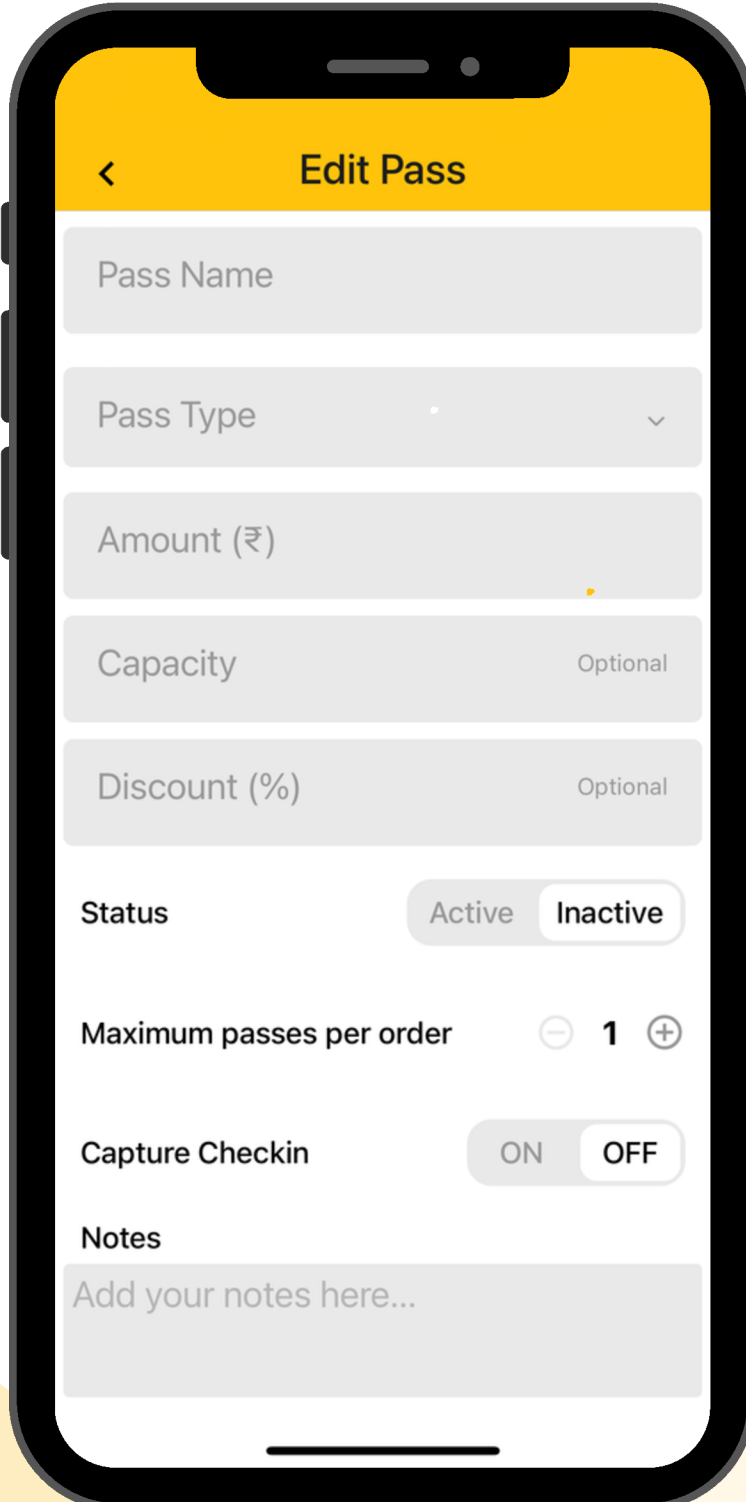

Edit Service

Add all the details for your service, include location, notes and links.

Add Passes

Offer your service subscriptions as “Passes”.

The image shows a smartphone screen with the 'Edit Pass' configuration interface. The screen has a yellow header with a back arrow and the text 'Edit Pass'. Below the header are several input fields: 'Pass Name', 'Pass Type' (with a dropdown arrow), 'Amount (₹)', 'Capacity' (with 'Optional' text), and 'Discount (%)' (with 'Optional' text). There are two toggle switches: 'Status' (with 'Active' and 'Inactive' options) and 'Capture Checkin' (with 'ON' and 'OFF' options). Below these is a 'Notes' section with a text area containing the placeholder 'Add your notes here...'. At the bottom, there is a numeric input field for 'Maximum passes per order' with a value of '1' and minus/plus buttons.

Configure Passes

Configure your passes which will be listed for users to purchase.

Configure Passes

Share your Service QR for users to buy your service passes.
